WORK EXPERIENCE

Web Developer | System in Place | Remote (Texas, US)

Jul 2025 – Sep 2025

- Designed, developed, and deployed a fully responsive WordPress website aligned with client branding, improving usability across desktop and mobile devices.
- Customized page layouts, navigation, and UI components to improve user experience and accessibility.
- Gathered requirements directly with the client, presented progress updates, and implemented feedback through final delivery.

Mobile and Web Developer | D'Horizon Information Technology Services | Taguig City

Jun 2023 – Dec 2024

- Built responsive web and mobile applications with React, React Native, and Node.js for client projects based on defined requirements. Built reusable components and integrated third-party APIs.
- Implemented responsive user interfaces that improved usability across screen sizes and devices. Participated in Agile sprint planning and daily stand-up meetings.
- Debugged, tested, and enhanced features, resolving defects and improving application reliability.
- Delivered project milestones on schedule as part of an Agile team using Git Flow while maintaining code quality.

Customer Service Representative (Travel Consultant) | Redlime BPO Corp (Pinoy Tourism KSA) | Ortigas, Pasig

Jan 2025 – Sep 2026

- Assisted 50+ customers daily with travel bookings, itinerary modifications, and reservation inquiries through voice and chat, maintaining high customer satisfaction.
 - Documented customer records and transactions accurately in Zoho CRM.
 - Supported travelers with empathy, patience, and professionalism, turning concerns into clear solutions.
-

PROJECTS

BLA Web Application (Capstone) | MongoDB, Express.js, React, Node.js

<https://blessedlandacademy.online>

- Led a team of in building a web application and mobile application for students to request, monitor, and track school documents online. Build scalable backend services and RESTful APIs.
- Implemented role-based authentication and request tracking, reducing manual processing and long queues (faster turnaround).

Event Scheduler | MongoDB, Express.js, React, Node.js

<https://tupt-scheduler.org>

- Built a full-stack event management system where students and administrators create, update, and track school events.
- Implemented CRUD operations, authentication, and a responsive UI.

NEC Tracking System | Internship, NEC Multipurpose Cooperative

<https://nec-multi-purpose-tin-number-tracking-frontend.vercel.app>

- Built a web-based member management system with modules for registration, record tracking, and information management.
- Replaced manual record keeping, saving hours per week across member records.

TECHNOLOGICAL UNIVERSITY OF THE PHILIPPINES BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY | NOV 2024

Dean's Lister (2022) | Capstone Team Leader

Certifications: DEVCON Summit 2022 (Campus); DEVCON 2023
